Index by subject matter (thematic review) Journal of Medical Ethics, volume 22, 1996

Editor's Note
This combined index and thematic review was introduced in the hope that it would be more useful to readers than the old system. In the first part, papers and book reviews are classified using the American National Reference Center for Bioethics Literature Library Classification Scheme (the Kennedy system), which is printed on page 378. In the second part authors, reviewers, papers and book reviews are arranged alphabetically, with their Kennedy classification following.
